

Raymond Recorder

VOLUME 35

FRIDAY MAY 1ST, 1942

NUMBER 1

Beet Bonus This Week --- Seeding Advancing

Southern Alberta beet growers received a 65c. per ton bonus Tuesday last on the 1941 beet crop, which amounted to a payment of \$193,000 altogether. This is the second bonus cheque on last year's beets and the growers will continue to receive additional bonuses until the sugar from the 1941 crop is all marketed.

Beet seeding is rapidly nearing completion and as this is locally about 85 p.c. of beet fields are seeded. Moisture conditions have been favorable for the seeding, and some of the earliest seeded fields are already showing up in the rows.

Grain seeding is rapidly proceeding. This year will see quite an increase in hay acreage over this district, and it is expected too that coarse grains, flax, soy beans and other crops will also be quite extensively planted. The program of the district, in respect to crops is becoming more diversified all the time. It will be two weeks more at least before seeding commences to approach the finish and in the meantime everyone is busy all the daylight hours.

CANADA SAYS "YES"

Canadians across the Dominion gave the Government a definite "Yes" when they went to the polls Monday to cast their ballots. Only in the Province of Quebec where a "No" vote was expected, did the opposition carry a majority. Here the reports were about 20 Yes to 80 No. In the other Provinces the percentages were all the way from 75 for to 25 against to nearly a straight 100 p.c. "Yes" vote.

Locally there were 534 votes cast, and the totals in Raymond were 418 "Yes" ballots to 116 "No" votes. Just over half of the local voters exercised their franchise.

The Government should now feel free to carry out any program that will strengthen and hasten the "all out" effort of Canada in the war.

Mr. and Mrs. Shirley King have left for the Military Postal service in Ottawa and have rented their home to Mr. and Mrs. Fred Gardener.

LINE ELEVATORS APPOINT LAMONT VICE-PRESIDENT

Announcement of the appointment of Cecil Lamont as vice-president of The North West Line Elevators Association was made today by V. W. Tryon, president, following a meeting of Board of Directors of the association. Mr. Lamont in October last, took over the duties of L. W. Brockington, K.C. who held the post of general counsel for the Line Elevators and since the outbreak of war had been on leave of absence from the association occupying the post of special advisor to the war committee of the Dominion cabinet.

The North-West Line Elevators Association is comprised of the owners and operators of a 3400 country grain elevators and coal yards located throughout Western Canada and terminal elevators at the head of the Great Lakes and on the Pacific coast, with a total storage capacity of 365,000,000 bushels of grain.

RED CROSS IN THE FRONT

In two and a half years of intensive submarine warfare less than three per cent of thousands of tons of goods sent overseas by the Canadian Red Cross has been lost by enemy action. This outstanding achievement was pointed out by Captain David M. Legate Assistant Commissioner Overseas of the Canadian Red Cross Society, who is home for a brief visit after 30 months' duty in the British Isles.

"If Britain were to be invaded tomorrow," said Captain Legate, "The Red Cross is completely organized to carry on without a hitch. In the event of our London headquarters going up in smoke we have five other departments which can function immediately either independently or together. Our staff would be dispersed to areas, the virtues of which have been weighed well in advance. If the invasion initiative is taken by Britain, the Canadian Red Cross is on its toes and ready to go. When the Canadian Corps 'moves up' Red Cross supplies will go with it and there will be Red Cross officials right on duty at the bridgehead."

Captain Legate explained that new methods have been developed for the distribution of supplies to troops in action. Not more than one week elapses between a request and the arrival of supplies at that post.

Five different departments, including one for civilian relief hospital supplies invalid delicacies department, comforts department and the department which traces the whereabouts of prisoners of war and missing soldiers advising their relatives back home in Canada, function in the Canadian Red Cross overseas.

Eleven warehouses placed at strategic points in the British Isles house the shipments coming in from Canada. The contents of each warehouse include every necessity. If ten of them were destroyed there would be no vital shortage of anything required.

Captain Legate doubted that Canadian shores which did not have a convoy that left early something for the Red Cross.

APPRECIATION

A letter to his father in England from the driver of an armoured vehicle in the Middle East reads as follows:

"The civilians in the game who don't care a d--- what they do or where they go are the Y.M.C.A., the Salvation Army and the Padres.

"When a S.A. bloke can get Aussies to sing hymns and like it, he's pretty hot. As for the Y.M.C.A., they beat the band. Right up in this front area two of them run a canteen and read the room in the remains of a house dropped up between ruins. They are shelled regularly and bombed half a dozen times a day.

"One morning I was the only one in the room. One of these Y.M.C.A. chaps was writing a letter the other was listening to the radio. Jerry suddenly turned on the heat, dive bombing. But these chaps didn't budge except that the one at the radio strolled over and looked out of the window. The letter-writer merely looked up and shouted (you had to shout): "

Army Train Very Interesting

Consisting of fifteen cars and carrying \$3,000,000 in equipment, the Canadian Army train which has been on the go for three months past and will continue for another two weeks, stopped at Lethbridge Sunday evening from 6:30 to 11 p. m. and was visited by 6,478 people, according to the commutation of the electric eye which clocked everyone who passed by it.

The train started from Montreal and went down through the Maritimes, swinging to the north and crossing Canada on the main line of the C. P. and C. N. R. out of Vancouver and the Coast and then swinging south, coming down through the Crow's Nest and running on the southern main line back to Montreal. 688,392 Canadians had visited the train up to the time it was in Lethbridge to see what Canada is doing in her war effort and to see what our boys are furnished in clothing and equipment in their army life.

The first six cars of the train were fitted up for eating, sleeping and quarters for the officers and men and one recreation car. The last nine cars of the train where the exhibition was carried were visited by the 6,478 people, many more watched from the street. The police on duty formed the people in lines and from the time the train was opened for inspection the line moved through. We joined the line at 8 p.m. and set foot on the steps of the first car of the train at 9:30 being obliged to move with the crowd that long to get in. Good order prevailed throughout.

Without a lot of detail the uniforms of the men including the new walking out suit which is just being issued, ski uniforms, bedding, and kits were on display. Each man is furnished with 115 different items in his "official" kit when he enlists and these were all shown, as well as the uniform of the C.W. A.C. The Signal Corps had one car and a cable laying machine was on display. One car was full of artillery equipment and provided decidedly interesting. There was a display of food, the rations issued the men, the Red Cross had a car, the dental and medical departments each had a display and a 25 pound gun using ammunition of 3.45 inches in diameter was shown with its rubber, mounted carriage and truck carrying ammunition. On a 22 ton tank, a 60 inch search light whose beam travelled sixty miles and which could keep a plane in its lights for miles was demonstrated and the sky was pierced in all directions with its powerful rays. Smaller tanks and carrier and also a jeep were there to be examined although by the time the last of the crowd got through the train it was too dark to see much of these outside exhibits.

The stream moved steadily through the cars, and any minute inspection of anything was thus impossible. The exhibit of the Army Trade Schools was fine but one was only able to get a passing view of it as the crowd passed along. Three bands were on hand to furnish music for the crowd, and soldiers and airmen from Lethbridge barracks, assisted city police, and the 59 men making up the complement of the train in taking care of the crowd and answering questions as they were asked. It was very interesting and very educational to see what Canada is doing in her war effort.

NEWS NOTES

Mrs. Dave Watson of Cardston spent the week-end with her son-in-law and daughter, Mr. and Mrs. W.L. Jones.

If you are not a paid subscriber to this paper, you ought to be. We are trying to do our share to build Raymond and the district and we need your assistance. SUBSCRIBE NOW.

Gardeners are busy now planting their garden stuff. The days are warm and the soil is in perfect condition, but the nights remain cool with a little frost every night.

Miss Illicks who is attached to the New Zealand embassy in Washington, D. C. has just returned from a holiday spent in Ottawa. She met a number of Western Canadians there and had dinner with Pres. T. Geo. Wood when he happened to be there. She travelled by air and got a big kick out of the aerial view of New York City. She is fine and enjoying her work immensely.

wish you'd come away from that window. One of these days you'll fall out and break your neck."

"I was seriously thinking about a funk-hole for myself of right then, but I simply couldn't right then, but I simply couldn't go after that."

Tom Roberts and Jos. Kirkham built a new coal chute by the side of the Mercantile coal bin on Friday. Saturday it felt like it might be needed at once. A cool north wind blew all day.

The Factory men, in the office and in the mill stopped two hours early Monday to give them all time to vote.

Speakers at the First Ward Sacrament service Sunday evening were Stake Pres. T. Geo. Wood and Elder John L. Allen, both of whom gave very interesting sermons.

Upon his return from Eastern Canada T. Geo. Wood of Canadian Sugar Factories Ltd. reported conditions very wet and the season delayed. In the Montreal district spring was late and in and around Winnipeg it was so wet farmers did not think they could get on the land for two or three weeks.

At Rotary on Monday Steele and Teddy Brewerton furnished the program. Teddy played a piano number, a novelty arrangement of "Home Sweet Home" and Steele who just returned last week from University at Edmonton spoke on some of the activities at that institution and about a funk-hole for myself of right then, but I simply couldn't go after that."

What About Our Summer Sports

PRIMARY CONFERENCE

Primary Conference was held in the Raymond 2nd Ward Sunday evening with a very large attendance present. After the opening exercises the Primary officers under the direction of Mrs. Harold Stevens conducted the program.

The children from the smallest class up all took part in either speech or song and it proved a very interesting program as the numbers were given. Remarks from the ward and Stake officers were instructive and interesting.

WEDDING BELLS

THOMSON — ROMERIL

A wedding of interest took place Wednesday, April 22nd at the Cardston Temple when Miss Marguerite, daughter of Mrs. George Romeril of Raymond and Rulon Thomson, son of Mr. and Mrs. George Thomson of Magrath were married. Pres. Edw. J. Wood officiated at the ceremony.

We wish them much happiness and success in their new life.

BOARD OF TRADE IN INTERESTING MEETING

A lengthy and busy Board of Trade meeting was held last night when re-organization took place and a number of important public issues were discussed. A full report of the meeting will be carried next week.

LOCAL BOY VISITS CHILDHOOD HOME OF HIS PARENTS

Sergt. "Pat" Jamison, son of Mrs. and the late O.O. Jamison of Raymond, journeyed from his barracks in London, Ont. on a six day leave to his mother's home in Pike, West Va., and also visited his father's people in Ohio.

During his stay there he visited the West Virginia University at Morgantown, where his cousin is attending, and the old home of both his parents, where they lived until coming to Canada in 1910. The U.S. certainly respects a Canadian uniform and "Pat" says the whole U. S. is certainly behind us.

Besides Sergt. Jamieson serving with His Majesty's forces, there are his brother Leonard Jamison, with the Saskatoon Light Infantry, who has been overseas since December 1939, and Willis Jamison who is with the Royal Canadian Engineers, where so many of his friends from Raymond are serving. Willis is at present stationed in Debert, Nova Scotia.

NEWS NOTES

Burns Larson is home for a few days from his studies at the U. of A. in Edmonton.

Will Lamb has just finished painting his house. It looks real neat and clean in its new coat.

Quite a number of Raymond people went to Lethbridge Sunday evening to see the Army Train during its stop there.

Jos. Linitski and Jimmie Robertson are both busy at the Ellison Elevator while "Mac" is forced to take things easy.

We should be acting more or less on a community basis regarding our Summer sports. With the rationing of gasoline and the ban on tire purchase, we must find our recreation at home and must provide it ourselves.

We have a Golf Club organized, and for golf enthusiasts the summer program is complete. But we don't all play golf. There are a few private tennis courts but everyone doesn't play tennis, and everyone isn't invited to these courts. There are a few horseshoes in town for this sport, but we have never made it what it may be in the Town. There is unlimited possibilities in Softball.

Can't our Athletic Association act as an organizing unit to canvass the field and see what might be started. Baseball is a game of speed and a comparatively few take part. Softball, on the other hand can be played by everyone, male & female from eight to eighty. Horse shoes, tennis, lawn bowling and many other sports offer opportunities for different groups and can be played by all ages.

Everyone needs to play. If there is one thing we need in this community more than another, it is more social contact in work and play so that we can get better acquainted. A wholesome summer sports program, so arranged that all could take part, would help all of us a great deal, and no one is too busy to take part. Let's do something besides wishful thinking.

OBITUARY

Walter S. Rouse, 80, passed away at midnight last night. Well known and highly respected he will be missed by a wide circle of friends. Our sympathies are extended to the sorrowing widow. Funeral services will likely be held on Sunday.

PLEASE HELP

The local Branch of the Canadian Legion needs your co-operation in securing names and the most recent addresses of all the boys in the Services.

This is required for listing on an Honor Scroll which is being prepared.

Please assist in this effort at once and give names to any Vet.

QUARTERLY CONFERENCE

will be held Magrath, May 7th, Stirling, May 8th, both evening Raymond, May 9th and 10th. Bishop J. Withlin will represent the General authorities.

NEWS NOTES

Geo. Brewerton was a business visitor in Calgary the first of the week.

Mrs. Bacon, who has been ill a great part of the winter, is improving and was out in the car the other afternoon.

Byron Anderson, who is in his third year of engineering at the U. of A. was home for a couple of days this week and returned again to his classes. The speed up program at the University doing away with all long holidays in his studies.

Paper, Rags, Metal-- They all Help. Save them.

duction becomes evident.

One is reminded of the story of the farmer during the depression years. A city friend was extolling the advantages of living on the farm where food could be raised and starvation seemed remote. Farm income was practically nil so the farmer replied, "Come back next fall and you will see the sleekest, fattest, but nakedest farmer you ever saw." Armies can be on the same category and can be fully equipped in all other respects but without proper clothing it will be of no avail.

The future situation of our wool supply is yet obscure, but this we know that Canada produces only a small part of its own requirements. If our other sources of supply, mainly Australia and New Zealand are cut off, we will be in the critical position of being unable to clothe properly either our armed forces or our civilian population. For the more distant future the only answer is increased sheep production. For the immediate future the answer must be the best possible harvest from our present sheep population.

This means getting all the wool and getting it to market in A-1 condition. The careless handling of the wool clip by the producer, all too prevalent in the past should not be tolerated to the slightest degree. Several important points may be emphasized.

A solid, smooth, shearing floor should be provided so that the fleece can be kept clean. A good room and a little elbow grease will keep the floor clean.

Only paper twine should be used for tying the fleeces. Bind or twine or other twine, will introduce fibres into the fleece that may make the wool unfit for the use to which it is otherwise suited.

The sheep should be sheared only when the wool is dry. Shearing wool that is damp is the same as asking for trouble from an Irishman, you're almost bound to get it. Likewise permitting the wool to get wet after it is packed may lead to extensive damage and loss in quality and value.

Wool is an essential commodity. Treat it properly. Don't be guilty of sabotage.

Patron.
"Keep"

On December 1st, 1926, the Alberta Wheat Pool members declaring that "Each signer must keep," imply that the Pool Executive would also "keep" the money.

Recently the Alberta Pool announced the payment of patronage dividends.

The reason that the Alberta Wheat Pool has 1. is that they are performing the old feat commonly known as "keeping the money."

In this case it may be more aptly expressed as that of

Payment of patronage dividends by the Alberta Pool to their failure to live up to their promise to pay interest on the money borrowed from Alberta farmers on wheat delivered to the Pool in 1923 to 1929. You will remember that on all wheat delivered during this period, they deducted two cents per bushel for the building of elevators.

In addition to borrowing from the farmer two cents per bushel each year for the building of elevators the Pool collected each year from the farmers' grain a further deduction amounting to one per cent of the selling price of the grain. This commercial reserve deduction amounted to approximately 1 1/2 cents per bushel each year, bringing the total yearly deductions to approximately 3 1/2 cents per bushel. In the crop years 1923-24 to 1928-29 growers delivered 285,227,754 bushels of wheat to the Alberta Pool. During this period the Pool borrowed from farmers approximately 15 cents per bushel for elevator and commercial reserves.

The total amount of money borrowed in cash by the Alberta Pool from its members in the form of elevator and commercial reserve deductions was \$7,432,250.28. In addition the Alberta Pool has retained since 1928, and still holds, \$1,057,554.35 due Alberta farmers as the final payment on the 1928 crop. This brings the total amount of money which the Alberta Pool has borrowed from farmers to \$8,469,804.63 which was evidence of a lot of faith.

When this money was being borrowed from Alberta farmers the Board of Directors told farmers in Fifth Annual report of the Alberta Wheat Pool for the fiscal year 1926-27:

"Our reserves have apparently occasioned some anxiety to a few growers in as much as no re-payment has as yet been made, though it has been stated time after time that as soon as it was possible to start re-paying these reserves, without impairing the credit of the organization, that repayment will be made."

"All members are paid six per cent interest, in cash, on elevator reserves, from the time that the deductions are made until they are re-paid."

The next year the Pool directors decided that it was only just and proper to pay the farmers interest on the Commercial Reserve deductions as well as on the Elevator deductions which they had borrowed. In the report of the Board of Directors of the Alberta Wheat Pool for the fiscal year 1927-28 it is stated:

"During the past year your Board has decided to include payment of interest on Commercial Reserve along with the interest paid on the Elevator Reserves. This interest will be reckoned as from the 31st of August, 1927, and payment will be made at the rate of 6 per cent on the Reserves standing to the credit of each member on the 31st of August, 1927. These payments will be made as soon after the first of the year as it can conveniently be done."

The interest at 6% on \$8,469,804.63 for one year amounts to \$508,188.27. The Alberta Pool has had the use of this money since August 1st, 1929, without paying interest to the farmer from whom it was borrowed. The interest which should have been paid to farmers since 1929 amounts to \$8,581,037.36. Every farmer in Alberta knows that he had to pay interest on money that he had borrowed, and it was usually more than six per cent.

Payment of interest on capital funds of co-operatives, obtained from members, and on savings borrowed from members, is an established principle of the Co-operative movement as being legitimate 'hire' for money.

It is obvious that the Alberta Pool properly owes the Alberta farmer:

First: The \$8,469,804.63 which they borrowed from farmers for elevator and commercial reserves.

Second: Interest on this money amounting to \$8,581,037.36.

These two amounts which the Pool owes its members total \$17,050,841.99. That again is evidence of a lot of faith.

But that is not all of the story about just why it has been possible for the Alberta Pool to distribute the patronage dividend which has been advertised so widely.

It is our contention that the Alberta Pool Elevators have been evading the payment of Dominion Income and Excess Profits taxes since the Wheat Pool operations were abandoned. Since that time the Pool Elevators have been functioning just the same as any other elevator company, except that the Pool Elevator Companies must have spent amounts totalling millions of dollars in propaganda, through publicity, radio advertising and field service work.

There are only two ways in which to obtain money to provide our soldiers, sailors and airmen with fighting equipment. One is by way of taxes and the other is through Victory Loans. The Alberta Pool has not paid the Dominion Government one cent in income and excess profits taxes, while other elevator companies have been paying this tax. The Dominion Income Tax is now 40% which is a substantial amount. Some may think that it is easy to evade taxes, but if every corporation in Canada failed to contribute to

the Federal Income Tax, the same manner as the Alberta Pool, our soldiers including our sons or sons-in-law, who may be in the forces, would have to fight German and Japanese tanks, guns and dive-bombers with their bare fists.

It is estimated that the amount of Income and Excess Profits taxes which the Alberta Pool should have paid the Federal Treasury in the years 1930 to 1941, and which they have so far escaped paying, totals \$778,732.00. This would buy a lot of fighting equipment which is badly needed. To obtain it every organization must contribute its fair share of taxes if our army is to have proper equipment for modern warfare.

It is quite fair and proper for you to ask why the Alberta Pool is able to pay a patronage dividend.

Our reply is that if the Pool were to live up to its undertaking to pay interest to farmers on the money which it borrowed from farmers and pay taxes as everyone else is doing, in the defence of our country (which includes the defence of co-operative principles and even the defence of the Pool elevator system) they would be in no position to pay any patronage dividends.

The Alberta Pool properly owes Alberta farmers \$17,050,841.99 which is made up of \$8,469,804.63 taken in cash from the farmers, plus \$8,581,037.36 of interest on that amount for the years 1929 to 1941. In addition their estimated tax obligation to the Dominion Government is \$778,732.00, making a total of \$17,829,573.99.

Interest at 6% on \$17,829,573.99 is \$1,069,774.44 annually.

We have also been asked about the letter forwarded to Alberta Pool members under date of April 15th, 1942, along with a cheque for five per cent of the value of the Elevator and Commercial reserve deductions taken from the Pool members. Some farmers who have inquired are under the impression that this is a partial payment of interest promised to them by the Pool on these deductions. This is not the case.

What the Pool is doing is buying off the farmer's equity in the Pool Elevator system at less than 50 cents on the dollar on the amount properly owing the real owners of the Pool Elevators and who contributed to the Elevator and Commercial reserves in the years 1923 to 1928. If the Pool was living up to its solemn obligation, as cited above directly from the report of the Pool Directors, they would have sent their farmer owner members a cheque for twice the amount that they sent out to individual farmers on April 15th. And it would merely have been payment of interest alone for one year on moneys which they owe the farmers, and not the questionable action of repayment of their obligation to farmer members at less than 50 cents on the dollar.

On December 1st, 1926, the Alberta Wheat Pool issued a statement saying that it had compelled Halvig Holmberg, a Pool member, to pay liquidated damages of \$1,000.00 for selling his wheat outside the Pool. In this statement the Alberta Pool said publicly:

"The action taken by the Wheat Pool was inspired by the fact that the welfare of close to 38,000 Alberta farmers depends upon the integrity and trustworthiness of individual signers."

"When a contract is broken the sufferers are the rest of the members of the Wheat Pool."

"A contract is a contract whether it be an agreement for sale or a Wheat Pool contract. Each signer must 'Keep the faith.'"

Pool members for twelve long years have failed to receive interest on the money which the Alberta Pool borrowed from them. They are now asked to accept less than 50 cents on the dollar on the amount which the Pool should properly be paying. How can this be explained as "keeping the faith?"

In forcing Halvig Holmberg to pay \$1,000.00 liquidated damages the Pool said of Mr. Holmberg, "... it is generally understood that he was in comfortable circumstances." Today the Alberta Pool is also "in comfortable circumstances" and is well able to "keep the faith" by living up to its promises to members from whom it borrowed money.

In time of war it is preferable to avoid as far as possible, internal controversies. Under the circumstances we have, however, no apology to offer in placing these facts before you as every farmer is entitled to know all the facts relating to the price which he receives for his product.

The figures given in this statement can be substantiated by a careful study of the financial reports of the Pool.

LINE ELEVATOR COMPANIES (14)

Miss Katherine Paxman has been transferred from the Cardston Treasury Branch and is now on the ledger in the local branch.

Will Lamb and Wilson Roifson put the new plate glass window in Brewerton's Store Saturday morning. The glass had been on hand a week or more.

Mrs. Robert Salmon returned to her home in New Westminister last Monday after being here for the funeral of her grandfather, the late Alfred Garner.

"THE HOARDER"

PUBLIC ENEMY
NO. 1

People who buy more of anything than they currently need, and merchants who encourage them to do so, are sabotaging the war effort and are therefore public enemies.

Loyal citizens do not hoard. They buy only for their immediate needs. They cheerfully adjust their standard of living, realizing that their country's needs must come first. They do not try to gain unfair advantages over their neighbours.

Are you a hoarder or a loyal citizen? Are you hampering Canada's war effort by unnecessary buying? Or are you

co-operating to the best of your ability to save Canada from such horrors as Hong Kong?

If Canadians do their duty, there will be no more hoarding. Everyone will get a fair share of the goods available. More food can be sent to Great Britain. More raw materials — more manpower — will be available for making guns, tanks, planes and other armaments to back up our armed forces.

In cases where it is advisable for you to buy in advance of your immediate requirements — such as your next season's coal supply — you will be encouraged to do so by direct statement from responsible officials.

FOR SALE -- 5 roomed house, in good condition, block east of Broadway. -- See W. L. Jones.

appointment was made at a meeting of the Board of Directors of United Grain Growers Limited held at Vancouver in connection with an inspection of the Company's terminal elevator at Vancouver. Mr. Brownlee succeeds on the Board of Directors of the Company, and as First Vice-President, Mr. D. G. McKenzie of Winnipeg, who recently resigned on account of his appointment as Chairman of the Board of Grain Commissioners for Canada. Mr. Brownlee's connection with the Company is of long standing. He became legal advisor in Alberta to the Grain Growers Grain Company in 1910 and assisted in bringing about the amalgamation in 1917 of the Grain Growers Grain Company and the Alberta Farmers' Co-operative Elevator Company Ltd., to form the United Grain Growers Limited. He acted as general Counsel for the amalgamated Company until 1921 when he entered the Alberta Government and he left political life in 1935, he again became General Counsel for the Company. He acted in addition, as solicitor for the United Farmers of Alberta, and for various other Farm Organizations in the Province. Mr. Brownlee will make his headquarters at the Calgary office of United Grain Growers Limited.

Modern, Experienced Banking Service the Outcome of 124 Years' Successful Operation

Raymond Branch: R. WELLS, Manager

YOUR SCRAP RUBBER
is now a vital war material

Enemy action in the Far East has caused such an acute shortage of rubber that our whole war effort is in serious danger. Canada and her Allies must have rubber, quickly, for the armed forces, for factories, for ships. The Japanese control our source of crude rubber imports -- the only other quickly available supply is old, scrap rubber, which can be reclaimed. Every citizen in Canada must do his part in collecting all the scrap rubber in the country and turning it over to the Government for war purposes. Here is how to do it.

THIS IS AN URGENT APPEAL FOR YOUR HELP

Question: Is the rubber situation really serious?

Answer: The shortage of rubber is so grave that any citizen hoarding rubber or using it unnecessarily is committing an act of disloyalty. It is now illegal to destroy any rubber article.

Question: Of what use is reclaimed rubber?

Answer: Old rubber is processed so that the rubber content is reclaimed. This reclaimed rubber is used in the manufacture of essential articles for our war effort, thus replacing crude rubber.

Question: How much scrap rubber is needed?

Answer: Fifty Million Pounds. This is a large quantity, but it MUST be found. Every old piece of rubber in Canada, no matter how small, is needed, QUICKLY.

Question: Should I turn in any usable rubber articles as well as worn out ones?

Answer: Absolutely not! By no means discard anything that is still useful and that might have to be replaced. On the other hand, rubber tires used as boat bumpers, swings, etc., should be turned in for war uses.

HOW DO I TURN IN MY SCRAP RUBBER?

The school boys and girls of Canada are being organized, through the school authorities, to act as Official Collectors of Scrap Rubber. The school nearest you is, therefore, your best Collection Depot. You may dispose of your scrap rubber in any one of the following four ways:

1. Give it to the children for their school collection.
2. Give it to your local National Salvage Committee.
3. Leave it with any Service Station or Tire Dealer where you see the sign: "Voluntary Scrap Rubber Receiving Depot."
4. Sell it to a junk collector.

When you gather up your scrap rubber and dispose of it by one of these methods, it will be used by the Government for Canada's War Effort. Do it NOW!
